

College Essay

Once the SATs are done, we help students to conceptualize and write excellent college essays. A distinguished college essay takes time and care.

College Applications

We help students to organize and complete everything they need for their college applications. We aim to have students complete all of their applications during the summer prior to senior year.

Sam Rosensohn, Gary Burgard & Kathryn Ryan

Sam Rosensohn, founder of College Planning Partnerships and author of the newspaper column College 101, runs the verbal portion of the program. Yale and Harvard graduates Gary Burgard and Kathryn Ryan run the math portion of the program.

Difference Between the Old and New SAT

A perfect score on the old SAT was 1600. A perfect score on the new SAT is 2400.

The math portion on the new exam is worth 800 points. The number of math questions has been reduced by 10 percent. Quantitative comparisons were dropped and students are now tested on Algebra II.

The verbal portion on the new exam is worth 1600 points. This portion of the test has doubled in value. Analogies have been dropped and grammar, a written essay and additional critical reading passages have been added.

Both sections of the SAT are very coachable because the test is so repetitive.

Course Dates

Courses are given year-round. Please go to our website at www.satprepct.com or give us a call at 860-664-9857 to see when the next class is offered. You may also call to make arrangements for individual tutoring or to create your own SAT class at times that are good for your group.
